What is Moringa?

Moringa Oleifera is the best known of the thirteen species of the genus Moringaceae. Fondly known as “The Miracle Tree” for reasons that will shortly become obvious.

ANTI-INFLAMMATORY HEALTH BENEFITS OF MORINGA IN AYURVEDIC MEDICINE

Moringa Oleifera has for many years been cultivated and used as traditional medicine for a range of ailments throughout semi-arid, and tropical areas of Africa, the Indian sub continent, Thailand, the Phillipines to South America.

According to the ancient Indian medicinal system of Ayurveda, Moringa can help treat up to 300 ailments. It is an immune booster and it is helpful in relieving pain and inflammation. Across Africa it is used to treat malnutrition.

It is widely agreed amongst modern scientific researchers of Moringa Oleifera and through clinical studies carried out that some of these claims are valid and not only anecdotal. This Moringa Superfood is rich in antioxidants, vitamins, minerals, omega oils 3,6 & 9 and a bounty of amino acids including all the 8 essentials that

the human body needs, all in one humble tree.

The Moringa Story

There is a story told many years ago as far back as 2,000 B.C., and also reflected in ancient Indian writings dating around 150 B.C., which is gaining prominence since the 1970s as scientists started conducting significant researches to substantiate the claims that were made. The Moringa story is a remarkable one of a humble plant that made strides in the ancient world for many years and whose secrets are being made available to modern science. With discoveries made so far, Moringa is reputed to be one of the most nutrient-rich plants that provide a rich and rare combination of health benefits including nutrients, amino acids, antioxidants, anti-aging and anti-inflammatory properties with many health benefits of Moringa in contrast to other plants which may have one or two benefits only. No wonder the plant is referred to as a powerhouse of health and nutritional value and called The Mircale Tree!

Moringa was prized for its therapeutic properties and was used by the Romans, Greeks and Egyptians to manufacture skin care products and for water purification. Modern science, in substantiating the claims, has discovered the incredible range of natural nutrients it contains.

Moringa Is Ideal For Vegans & Vegetarians As A Good Source Of Plant Based Protein.

Being plant based protein Moringa is the ideal way for vegans & vegetarians to receive the important proteins that the body needs, the Essential Amino acids cannot be synthesized by the body and has to be found in one's diet, so by adding Moringa into your daily regimen you can be sure your body receives the right amount of proteins that it needs while boosting your immune system at the same time. First hand plant based proteins also assimilate into the body much easier than second hand sources of protein, the Benefits of Moringa are endless.

Monica G. Marcou, P.hD. (Clinical Pharmacologist) – Scientist, Researcher & Author

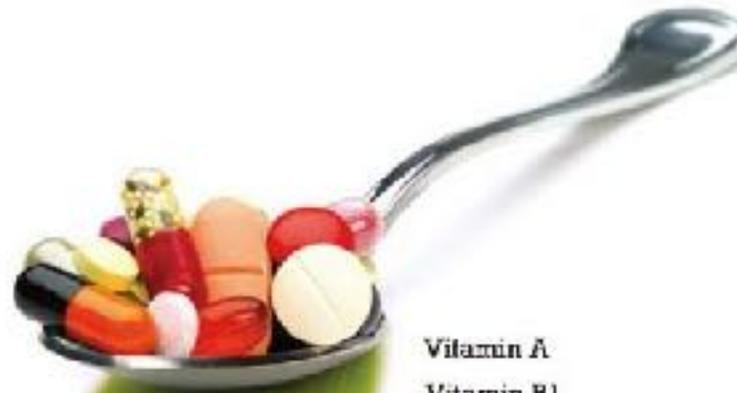

When speaking about Moringa she states:

“The essential amino acids that we cannot produce, their presence but also their ratio, is very beneficial and it is estimated that this ratio is very good for absorption and being bio-available for our bodies”.

Original Moringa Tea - Superfood In A Teabag

The story of our teas express the true African spirit of giving..... life giving nutrients. Throughout history, from ancient Egypt, Greece and Rome to Indian Ayurvedic Medicine and modern day Africa, Moringa has been known to help treat up to 300 ailments. For centuries from the smallest village to the largest cities, Moringa, along with other indigenous herbs, have been traditionally used medicinally from the youngest to the oldest of the family, utilizing it's time honored properties. In the Moringa tree Mother Nature has packaged a medicinal and nutritional powerhouse! Ancient nutritional wisdom for a modern world.

Energizing Flavourful Herbal Tea Blends - Supports Healthy Living & General Wellness

Rooibos

In this authentic African blend we combine Moringa with Rooibos. Rooibos has been part of the indigenous culture and medicinal heritage of the Khoisan people of South Africa for centuries. Wild harvested and culturally treasured, the Rooibos plant is unique to the Western Cape of South Africa, part of the Cape Fynbos floral kingdom. With it's sweet to mild flavour profile Rooibos has been known to improve blood pressure and circulation. This Moringa and Rooibos blend is rich in antioxidants, nutrients and African flavour. Enjoy a true taste of Africa!

Buchu

In this authentic African blend we combine Moringa with Buchu, which has also been part of the indigenous culture and medicinal heritage of the Khoisan people of South Africa for centuries. The Buchu plant, like Rooibos, is unique to the Western Cape, part of the Cape Fynbos Floral Kingdom. Buchu is known to help with inflammation, kidney and urinary tract infections, as a diuretic and as a stomach tonic. This Moringa and Buchu blend is rich in antioxidants, anti-inflammatory compounds and African flavour. Merci Buchu!

Lemongrass & Ginger

This authentic subtle, soothing West African blend is traditionally served after a meal as it deoderizes the intestinal tract. We have delicately paired Moringa with Ginger and Lemongrass, used by ancient ayurvedics of India to improve "the digestive fire". Widely used as traditional medicine in many cultures, these combined ingredients work synergistically, powerfully and effectively to rebalance the intestinal flora, whilst preserving the beneficial bacteria. This indigenous tea is rich in antioxidants, anti-inflammatory compounds and African flavour. Enjoy a true taste of Africa!

How To Use Our Moringa Leaf Powder

There are many ways to take Moringa leaf powder. It can be added to smoothies or sprinkled over a bowl of fruit, mix and use as a salad dressing or over oatmeal/porridge. Some like to add it to their evening meal, but we would advise not to cook it but sprinkle on food before serving so as to retain all the nutrients.

Great In Smoothies, Juices, Yoghurt, Porridge, Soups, Salads & Stews etc.
